nes are ready for Cuba as soon as revolution is ended—No attempt been made to form an alliance with other European powers to fight United States.

First district—For congressman, C. P. Taft; for elector, Leopold Markbreit; delegates to the St. Louis convention, George B. Cox and Thomas W. Gray; alternates, Louis Krackemeyer and William B. Shattuck.

Second district—For congressman, Jacob H. Brownwell; for elector, Bernard Bertman; delegates to the St. Louis convention, John A. Caldwell and Andrew J. Hickenlooper; alternates, John Goetz Jr. and Charles B. Wing.

ALL FOR MCKINLEY.

The First and Second Districts Stand by the Major.

CINCINNATI, March 7.—The Republican conventions of both the First and Second congressional districts adopted strong resolutions for McKinley for president and nominated the following tickets:

First district—For congressman, C. P. Taft; for elector, Leopold Markbreit; delegates to the St. Louis convention, George B. Cox and Thomas W. Gray; alternates, Louis Krackemeyer and William B. Shattuck.

Second district—For congressman, Jacob H. Brownwell; for elector, Bernard Bertman; delegates to the St. Louis convention, John A. Caldwell and Andrew J. Hickenlooper; alternates, John Goetz Jr. and Charles B. Wing.

Lybrand Nominated.

DELAWARE, O., March 7.—Archibald Lybrand was nominated on the 75th ballot for congressman in the Eighth district. Each of the six counties had a candidate. The delegates to the national convention are G. M. Eichelberger of Urbana and J. C. Howe of Kenton.

Harris Nominated.

FOSTORIA, O., March 7.—The Republican convention of the Thirteenth congressional district nominated Congressman Stephen B. Harris of Bucyrus and selected George Copeland of Marion and L. W. Hull of Sandusky as delegates to the St. Louis convention.

Hon. Charles L. Kurtz Wins.

COLUMBUS, O., March 7.—The Republican primaries here resulted in the election of delegates in favor of Hon. Charles L. Kurtz for delegate to the national convention.

Lively Contest at Dayton.

DAYTON, O., March 7.—There was a lively contest at the Republican primaries and a large vote was polled.

McKinley Indorsed.

JEFFERSON, O., March 7.—The Republican mass convention chose delegates to the significance and the consequences of the United States in the rebellion, as well as to Spain in connection with the right of search on sea and in the matter of privateers and belligerents.

McKinley Indorsed.

WILL GO TO ST. LOUIS.

HAMILTON, O., March 7.—The Garfield club will go to St. Louis in behalf of McKinley.

CULLOM DECLARES HIMSELF.

He is a Candidate for the Republican Presidential Nomination.

WASHINGTON, March 7.—When asked for an authoritative statement as to the various reports concerning his candidacy for the presidency, Senator Cullom of Illinois said:

"After due consideration and careful investigation of the situation, I have said to the people of Illinois that I should deem it a high honor to have the support of my state delegation at the St. Louis convention. I am a candidate to that extent, and I may add that I see no reason why I should not continue to be a candidate."

"In making this announcement I desire that it should be understood explicitly that in entering the race I do not become a party to any scheme. I do not do it for the purpose of hurting or helping any other aspirant, except so far as my own success might have that effect. I have gone into the contest simply because I consider the ambition worthy one, and will take my chances with others in the final result."

NOW FOR REV. BELL.

Other Persons Responsible for Emily Hall's Death Dutifully Convicted.

DETROIT, March 7.—It took but one ballot by the jury in the trial of Mrs. Alice B. Lane to convict that person of manslaughter. Mrs. Lane was charged, jointly with Dr. D. J. Seaman, with responsibility for the death of Emily J. Hall, the girl who was brought here for treatment from Birmingham, England, by her pastor, the Rev. Jonathan Bell, with whom she had been unduly intimate.

Mrs. Lane was proprietor of the living in hospital in which Miss Hall died. Dr. Seaman, who attended her, was recently sentenced to 10 years in state prison for manslaughter in this case. Mrs. Lane has not yet been sentenced.

HUNTINGTON GETS FUNNY.

There Are Some Things He Does Not Desire to Tell.

WASHINGTON, March 7.—The Union Pacific investigating committee had Mr. Huntington on the rack and he was inclined to be sarcastic. He said the earnings of the road had been paid out in dividends and that they might have paid on the debt to the government but for the novelty of the thing.

He admitted he sold stock for private gain, and said he sold other stock cheap for the purpose of paying his debts. When asked to whom he was indebted he replied, "To those from whom I had borrowed." When asked from whom he borrowed he replied it was from those who had let him have the money.

A Small Sized Riot.

WARREN, Ind., March 7.—A riot took place in Isaac Lang's Government saloon and billiard hall, resulting in demolishing the furniture, breaking the doors and windows and inaugurating a scene of terror for about three hours.

The Liabilities Large.

WILKES-BARRE, Pa., March 7.—Q. B. McKnight's store at Plains, Pa., was closed by the sheriff. The liabilities and assets are not known. Judgments amounting to nearly \$25,000 were entered against him.

General Woodward Dead.

BROOKLYN, March 7.—General John B. Woodward died at his home in this city at midnight.

Philip J. Harper Dead.

HEMPSTEAD, L. I., March 7.—Philip J. Harper, the retired senior member of the publishing firm of Harper Brothers of New York city, is dead.

Passenger Rates Increased.

NEW YORK, March 7.—The trans-steamship companies have increased rates for third class or steerage.

CRESCO NOT IN IT.

England Will Generously Allow Him Ground to Stand On.

THAT IS GRUDGINGLY GRANTED.

According to the British Blue Book Venezuela Has No Territory Which Might Not Be Claimed by England—Other Maps, However, Will Probably Place Matters in a Different Light.

LONDON, March 7.—The British blue book on the Venezuelan boundary dispute was laid on the table of the house of commons. The following is a summary of the position of Great Britain as published in the work referred to:

First—Long prior to and at the time of the entry of Minister in 1840 the Dutch founded settlements in various parts of British Guiana, particularly on the coast.

Second—The only Spanish settlement prior to 1840 was that of the town of San Fernando de Guayana.

Third—During the whole period from 1840 to 1863 the Dutch had uninterrupted possession of the entire coast line and the River Coreuta to Barima.

Fourth—During the same period they had explored the upper portions of nearly all the rivers and made many settlements in adjacent districts.

Fifth—Prior to 1829 there was no settlement of Spaniards except Santo Domingo de Guayana.

Sixth—Between 1829 and 1859 Capuchin missions were established southward of the Orinoco and gradually extended eastward toward the Dutch territory, the furthest point occupied by the Spaniards being Tumeremo, founded about 1858.

Seventh—After 1858 the Dutch had settled on the Orinoco. Dutch settlements were established near the Yaracuy and the Dutch had full control of the whole basin of the Orinoco.

Eighth—Except for the settlement of Santo Domingo de Guayana and their missions the Spaniards exercised no authority in the territory now in dispute.

Ninth—Great Britain, on becoming possessor of the colony, succeeded to all the rights of the Dutch.

Tenth—After 1858 Great Britain extended her settlements and exercised over the territory originally claimed by the Dutch, all the rights whereby nations usually indicate a claim to territory.

Eleventh—Neither Spain nor Venezuela, after the latter had declared her independence, at any time had possession or dominion over the territory in question.

Twelfth—Great Britain, while maintaining her just rights, has consistently shown a desire to make a fair arrangement with Venezuela to regard to the boundary.

Thirteenth—The claim of Venezuela that her territory extends to the Essequibo is based on contentions in no wise supported by facts, and can not be justified on any reasonable grounds.

The foregoing thus establishes Great Britain in her strict right to be entitled to the territory extending to Barima, including the water-shots of the Essequibo, Cuyuni, Yururi, Pomeroon, Wahni and Barima.

The blue book contains nine maps, an official chart of the West India company dated 1855; Blaie's map of Guiana, dated 1848; the official map of the English commission on trade and plantations, dated 1793; Dr. Anville's map of Amerique Meridionale, dated 1748; a sketch map of the Dutch director general, dated 1852; an inset of Bonchon's map of the colony of Esquibo and De Meester, dated 1798; and Depon's Carte de la Capitainerie Generale de Caracas, dated 1804. The maps were prepared in order to illustrate the various boundaries referred to in the correspondence.

FIFTY-FOURTH CONGRESS.

In the House.

WASHINGTON, March 7.—The house passed the legislative appropriation bill which has been under consideration for a week.

Most of the time was consumed in the consideration of the amendment to abolish the fee-system in the cases of United States attorneys and marshals. This amendment was defeated and adopted.

The house entered upon the consideration of the post-office appropriation bill, the largest of the regular supply bills, which carries \$9,457,500.

During the general debate Mr. Long admitted that the bill did not propose to abandon the inspection system inaugurated by this administration, but the terms of the bill cut off the force employed by the first assistant postmaster general and increased the regular inspection force under the fourth assistant postmaster general.

In making this announcement I desire that it should be understood explicitly that in entering the race I do not become a party to any scheme. I do not do it for the purpose of hurting or helping any other aspirant, except so far as my own success might have that effect. I have gone into the contest simply because I consider the ambition worthy one, and will take my chances with others in the final result."

TRIED FOR TREASON.

An Over-powered Sentry Will Probably Be Wounded.

HAVANA, March 7.—The sentry who was on duty at the Jose Hidalgo fort, near Revisan, in the Holguin district, has been tried for treason for permitting the insurgents to enter that place. Corporal Antonio Medina made a brave resistance, during which he was wounded. Several volunteers, who composed the garrison of the fort, escaped by the windows. The insurgents captured 90 rifles and reenforcements and a large quantity of ammunition.

ELLIOT FACTION EXPELLED.

PITTSBURG, March 7.—The Baltimore branch of painters known as the Elliott faction was expelled from the United Labor league because of its refusal to endorse the present strike of Local Union No. 6 for the restoration of the reduction made in 1894.

WANTS TO MAKE IT SECURE.

PHILADELPHIA, March 7.—John D. Johnson filed a bill in equity in the United States circuit court for the United States Trust company of New York against the United States Cordage company and its receivers, asking that a mortgage deed of trust given to the plaintiff company as trustee on Jan. 1, 1891, securing the United States Cordage company's issue of \$7,500,000 bonds, be declared a lien on the defendant company's property in Pennsylvania.

Countfeiter Arrested.

NEW YORK, March 7.—Secret Service Agent George B. Eager raided the establishment of the Metropolitan Photolithographic company on the top floor of the building at 26 Clinton Place and captured an entire outfit for counterfeiting \$2 silver certificates of the series of 1899 with the Winton vignette. Two of the counterfeitors named Morris Goldstein and Charles Murray were found in the place and arrested.

NO SAFER THAN A BANK.

ELWOOD, Ind., March 7.—Henry Becker's residence, with contents, was burned, together with \$500 in cash, which he had deposited under the carpet.

MICHIGAN BANK FAILS.

FRANKFORT, Mich., March 7.—The Bank of Frankfort has failed and was closed. Liabilities, \$32,000; assets, \$60,900.

DECLARED A BOYCOTT.

HAVANA, March 7.—The Spanish merchants here have agreed to boycott the United States.

SMALL BITS OF NEWS.

FLASHES FROM THE WIRES FROM ALL QUarters of the Globe.

Portugal has concluded to stand by Spain through her Cuban troubles.

Compressed air is being used for running machinery at the Pittman car works instead of steam.

The entire family of G. Oldhouse were burned in the destruction of their home at Alma, Wis.

"Butcher" Weller in Cuba has issued a proclamation against arrests merely on suspicion and without proof.

The commission trying Dr. Brown for immorality at San Francisco has agreed that no one has ever seen Dr. Brown indulge in undress with any woman.

President Cleveland denies he has announced what action he will take on the Cuban question, and Minister De Lome denies sending a telegram to Spain, saying the president would never recognize the Cubans.

GENERAL WOODWARD DEAD.

BROOKLYN, March 7.—General John B. Woodward died at his home in this city at midnight.

Philip J. Harper Dead.

At New Orleans Philip J. Harper, partner of the Harper Brothers of New York city, is dead.

DUN'S WEEKLY REVIEW.

The Cuban Resolutions Had No Serious Effect on Trade.

NEW YORK, March 7.—R. G. Dunn & Company's weekly review of trade says: The Cuban resolutions and the appointment of a receiver for the Baltimore and Ohio were events of sufficient importance to affect almost any genuine market, especially for securities. It, therefore, argues either remarkable strength of conditions or an entire want of life and genuineness in the market that the prices of the 60 most active railroad stocks, which averaged \$49.74 per share Feb. 1, have never fallen since that date lower than \$49.36, nor raised above \$50.85 per share.

The industries all report a slightly lower range of prices, except for iron and steel products. The demand for no class of iron products is at this time brisk. Prices of wool have declined. There is no improvement whatever in the demand for woolen goods.

Speculation in breadstuffs has not been particularly active, nor has the change in prices been important. Corn remains substantially unchanged in price. The cotton market has continued its downward movement.

Failures for the week have been 285 in the United States against 274 last year, and 63 in Canada against 58 last year.

ANOTHER LOST CAUSE.

Nearangian Rebels Are Anxious to Make Terms of Peace.

MANAGUA, Nicaragua, March 7.—Rafael A. Gutierrez, president of the republic of Salvador, has telegraphed to President Zelaya of Nicaragua informing him that the Leon revolutionaries want to make terms of peace.

President Zelaya goes from here to Nicaragua, the scene of the first reverse administered to the rebels by the government forces. He will view the ruins of that city and will confer new honors upon the army officers who have led so effective a campaign against the insurgents.

President Zelaya is determined that the only terms of peace he will give are that the Leonists shall pay all the expenses of the war preparations which have been necessitated by their revolt, shall give up all their arms and that their leaders shall be tried by court-martial.

AN ERIE STOCK TRAIN

FLIES THE TRACK EAST OF LIMA AT 12:30 P.M.

Two men are seriously injured, one of them probably fatally—The engine and four or five hog cars wrecked—Trains delayed.

A wreck occurred on the Chicago and Erie, just east of Lima, this morning between 3 and 4 o'clock, which damaged the engine, four or five cars and injured two men, one of them probably fatally.

Train 7, an east bound stock train with a consignment of hogs for eastern markets, just east of Lima ran off the "D" rail. The engine went over and Engineer Horn jumped and saved himself from injury. Fireman Jones was not so lucky. He was more or less injured, but not seriously, and he will recover all right. Brakeman 1 was in the cab at the time, and in getting out of the wreck he was caught between the tender and the cab and was compelled to remain there for some time before released. He was conscious all of this time and assisted in directing the workmen in getting him from the wreckage. He was taken from the wreck and removed to a house in Lima, where he was given every care. Both legs are crushed and it is thought that he can not recover.

The four or five cars that followed the engine off the track were cargued with hogs, but only a few of them were killed. While the main track was blockaded and much damage done, the wreck was not altogether an expensive one. The engine was damaged perhaps to the amount of four or five hundred dollars, and the damage to the cars and cargo was not great.

Train 12 was obliged to go around over the P. F. and W. in order to get into this city, and it took several hours to clear the track so that traffic could pass.

THE IRVING SOCIETY

Gives a Charming Entertainment at the High School Auditorium.

The entertainment given at the High school auditorium Friday evening, under the auspices of the Irving Society, was greeted with a large audience, and much was the praise manifested over the successful entertainment by those who were present. The program was a mixed one, opening with the Irving chorus, composed of seven girls and two boys. "Where Cowdie Runs" was the title of the first number. Professor Becker was the pianist of the evening, accompanying all selections.

After prayer by Rev. D. B. Martin, the Twilight Mandolin club rendered the Paganini waltz. The mandolin club, composed of eight girls, is already popular in the city, and furnish excellent music.

"The Good Old Times," a eulogy and invective by Alta Hedges and Amy Key came next. Miss Hedges endeavored to show how good were the times of our grandmothers compared with those of today, and brought out many nice points. Miss Key, of course, was on the opposite side. They were received with loud applause.

The Mandolin club rendered "The Mandolin." Ethel Jones recited "Tocco the Beautiful" in a manner that greatly pleased her hearers, and May Lawrence delivered an oration, "The Scholar," in an equally pleasing manner.

After the Mandolin club had rendered the Peri waltzes came a debate. "Resolved, That the press has a good influence." Peyton Lord and Harry Martin had the affirmative and Ethel Waddell and Jay Aye the negative. Both sides brought out some very excellent points, although neither were declared winners, as there were no judges to make a decision.

The second part of the program was a very novel one-act comedy entitled the "Chromothanotetron." The scene was in the inventress' room, Miss Winifred Stowe assuming the cast of the inventress, while Miss Carrie Becker had the role of the genius of the nineteenth century. As Miss Stowe turned the crank of her machine the genius called forth from the graves characters that had lived centuries ago. It was the hit of the evening. Following is the cast:

Genie of the nineteenth century, Carrie Becker, Inventress, Winifred Stowe; Sarah, Alice Thompson, Pharoah's daughter, Grace Brashares, Cornelia, Louise Warner; Cleopatra, Kovic Thomas, Queen Elizabeth, Gertrude Scherff; Mother Bickerdick, Gertrude Haberman, Cecilia, Hallie Haberman; Agnes of Bologna, Elma Lawrence, Hypatia, Dale Ayr, Pocahontas, Etta Meley, Sappho, Ida Dodge, Martha Washington, Griffith Zachman, Priscilla, Ida Conant.

Homeseekers' Excursion Tickets via the Buckeye Route.

Will be sold to certain points in Alabama, Arizona, Oklahoma, Arkansas, Indian Territory, Kentucky, Louisiana, Missouri, Tennessee, Texas, and Virginia at extremely low rates of fares on January 27 and 28, and February 10, 11 and March 9 and 10. The old gentleman who was principal of Jesus college, Oxford, had the feeling that young men were for the most part finishing and required to be kept in their proper place, and possibly he was right. Yet Sunday after Sunday he had under graduate dinner parties, and gave his guests freely of his best, both in the way of profusion and of quality. At one of these parties the principal, who was a bit of a gourmand, and, although very short sighted, a most excellent and scientific cook, was preparing to attract a mighty goose which had been put by force.

"Will you allow me to do that for you, Mr. Principal?" exclaimed a young Welshman, with more politeness than discretion.

"Put that bird in front of Mr. M."

said the principal, addressing the butler, but, trying M. all the time with considerate courtesy, which eventually culminated in a most expensive sniff. M. was rather startled being thus suddenly taken at his word, but he set to work manfully enough on the goose with the sort of happy go lucky feeling that where there is a will there is a way. But a few things does that institution prove hold less good than of carving a goose. And of this fact M. was soon painfully conscious when it came to dissecting a wing. Fortunately the principal, after another prolonged struggle, came to the rescue.

"Take that bird away from Mr. M. and bring it back to me, and then, addressing M. he added, "I have often had occasion to notice Mr. M. that young men are very fond of undertaking tasks which they have no idea of performing, as well as in the matter of carving their personal acquaintances as in anything else."—Blackwood's Magazine.

On the same side.

The butler jumped over the office partition.

"It is well to be on the safe side, he said.

Then he began work on the vulture.

THE GREAT SOUTH AMERICAN NERVINE TONIC AND Stomach & Liver Cure

Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar.

It is Safe and Harmless as the Purest Milk.

Wonderful Nervine Tonic has only recently been introduced by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative has been known by a few of the most learned physicians, who brought its merits and value to the knowledge of the

public. This medicine has completely solved the problem of the cure of indigestion, and diseases of the general nervous system. It is the greatest value in the cure of all forms of failing health from disease. It performs this by the great nervous tonic qualities possessed, and by its great curative powers upon the digestive system, the stomach, the liver and the bowels. No remedy compares so wonderfully valuable Nervine Tonic as a builder and strengthener of the forces of the human body, and as a great renewer of a worn constitution. It is also of more real permanent value in treatment and cure of diseases of the lungs than any consumption ever used on this continent. It is a marvelous cure for nervous females of all ages. Ladies who are approaching the critical known as change in life, should not fail to use this great Nervine Tonic, as it will almost constantly, for the space of two or three years. It will easily over the danger. This great strengthener and curative inestimable value to the aged and infirm, because its great properties will give them a new hold on life. It will add ten years to the lives of many of those who will use a half dozen of the remedy each year.

S A GREAT REMEDY FOR THE CURE OF

Broken Constitution,
Debility of Old Age,
Indigestion and Dyspepsia,
Heartburn and Sour Stomach,
Weight and Tenderness in Stomach,
Loss of Appetite,
Frightful Dreams,
Dizziness and Ringing in the Ears,
Weakness of Extremities and
Fainting,
Impure and Impoverished Blood,
Boils and Carbuncles,
Serofulosis,
Serofulosis, Swellings and Ulcers,
Consumption of the Lungs,
Cataract of the Lungs,
Bronchitis and Chronic Cough,
Liver Complaint,
Chronic Diarrhea,
Delicate and Serofulosis Children,
Summer Complaint of Infants.

These and many other complaints cured by this wonderful Nervine Tonic.

NERVOUS DISEASES.

In care for every class of Nervous Diseases, no remedy has been compare with the Nervine Tonic, which is very pleasant and safe in all its effects upon the youngest child or the oldest and most individual. Nine-tenths of all the ailments to which the human body are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the food is supplied; and a thousand weaknesses and ailments as the nerves recover. As the nervous system must supply all over by which the vital forces of the body are carried on, it is the sole want of perfect nutrition. Ordinary food does not contain sufficient quantity of the kind of nutriment necessary to repair at our present mode of living and labor imposes upon the nerves, on this reason it becomes necessary that a nerve food be supplied. South American Nervine has been found by analysis to contain the elements out of which nerve tissue is formed. This accounts universal adaptability to the cure of all forms of nervous debility.

CRAWFORDSVILLE, IND., Aug. 26, '86.—REBERRY WILKINSON, of Brownsville, Ind., says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia, and Indigestion, until my health was gone. I had been doctoring constantly, with no relief. I bought one bottle of South American Nervine, which done me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weak person to use this valuable and lovely remedy; for it has cured me completely. I consider it the grandest medicine in the world."

A SWORN CURE FOR ST. VITAS' DANCE OR CHOREA.

CRAWFORDSVILLE, IND., June 22, 1887.—daughter, eleven years old, was severely afflicted with St. Vitas' Dance. She is completely restored. I believe it will cure every case of St. Vitas. I have kept it in my family for two years, and am sure it is the best remedy in the world for Indigestion and Dyspepsia, and for all Nervous Disorders and Failing Health, from whatever cause.

JOHN T. MISU,

Montgomery Co., Indiana.

DIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic

we now offer you, is the only absolutely unfailing remedy ever made for the cure of Indigestion, Dyspepsia, and the vast train of aches and horrors which are the result of disease and debility of the stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the expert testimony of many go to prove that this is the one and greatest cure in the world for this universal destroyer. There is no malignant disease of the stomach which can resist the curative powers of the South American Nervine Tonic.

Mr. ELLA A. BRENTON, of New Ross, Indiana, says: "I cannot express how much I owe to the Nervine Tonic. I had been sick for five months with Nervine Tonic. My system was completely shattered, appetite gone, was coughing and bleeding up blood, and was in the grip of a severe and protracted attack of indigestion. I had given up all hope. Had given up all hope. I began to take the Nervine Tonic, and continued its use for about six months, and am entirely cured now. I am better cured in the world. It is the grandest remedy for nervous, stomach and lung disease I have ever seen."

Diagnose us to the throne from the thorn, and used to call himself a self-made man. He was tyrannical, severe and cold, as all self-made men are. So if made men are very prone to usurp the prerogative of the Almighty and to arrogate to themselves which can never be granted to any man. The self-made man, do not fail to use this Nervine Tonic as a cure for the nerves. No remedy compares so well for all forms of failing health. It is potent to cure Dyspepsia. It never fails to cure Chorea or St. Vitas' Dance. Its powers are wonderful in the extreme. It cures the old, the young, and the sick, and to the aged and infirm. Do not neglect to use this precious tonic, which can restore you to health. South American Nervine and Dyspepsia. The self-made man, do not fail to use this Nervine Tonic as a cure for the nerves. PROF. P. W. SEARCH.

Marion Will Likely Get To Bear Him on

the Evening of March 24.

Prof. P. W. Search, in whom Marion

has decided interest, because he is one

of her distinguished sons, left this

week for Indiana and Illinois on a lec-

ture tour, expecting to return here the

latter part of the month to complete

arrangements for his New England

lecture engagements. Supt Powell has

in contemplation the engagement of

Mr. Search for his educational lecture

here, and it is probable that Tuesday

evening, March 24, will be the date

it must be in fact if any date is secured.

Professor Search is so well known as

an exponent of Individualism in Edu-

cation and has been before the public

so considerably and successfully else-

where that there is a decided desire to

hear him in his old home. The Star is

sure a splendid audience would enthu-

astically greet him. It is hoped the

date and detailed arrangements will be

made.

Prof. Search's lecture program covers

fifteen subjects, some devoted wholly

to educational and literary work others

popular in character. It may be argued

that Marion is not so much interest-

ed in any particular lecture as it is in

the lecturer.

MARION TO HAVE A FINE NEW BANK

ING COMPANY.

The First National Bank Since 1869 Will

Be Established, With Capital of \$100,000.

Charter Applied For—Some of the Men

Back of the Enterprise.

Marion is to have a national bank,

the first banking house with a national

charter since the old First National

went into liquidation in 1869. The ap-

plication for charter was forwarded to

Washington this week and when it ar-

rives the consummation of present

plans will be pushed along rapidly. The

capital stock is to be \$100,000, a large

percentage of which is already sub-

cribed and the list embraces the names

of many of the most trusted men in

Marion county.

The successful efforts toward the or-

ganization of the new bank were begun

by George H. Uhler, a prominent young

business man at present identified with

the mercantile house of Uhler, Phillips & Co.

He soon enlisted the active interest of

J. H. Hopkins, president of the Marion

Manufacturing company, a man having

noteable financial interests and enjoy-

ing highest confidence throughout the

county. These two gentlemen, co-operating with Attorney

Fred Githery, another young and ac-

tive spirit in promoting the work, soon

found the project a popular one that

readily enlisted substantial support.

For example the temporary directors

will consist of Mr. Hopkins, Mr. Uhler, P. G. Harvey, John D. Owens, of Owen, Charles McEvily, R. L. Highly, of Cal-

donia, and Albert Oborn—well known men, who not only enlist fullest trust

in their immediate communities, but

throughout Marion county.

The projectors already have options

on very desirable quarters and will be

in excellent position to give Marion an

ideal banking house. It is planned to

have matters take form so that the new

institution will be ready to open its doors within the next four months, perhaps July 1st.

There is also contemplated a savings

bank organization in connection with the

new national, subscriptions being taken

to organize a savings bank with a capital of \$50,000. The two banks will

necessarily be wholly separate in organization, as the law requires.

It is understood the new national and

savings bank will be popularized by

limiting the share holders to small amounts, so that the bank will be free from any preponderant or associate interests.

The plan is to give the people with a small amount of capital to invest the long sought opportunity in this direction. The savings bank is

especially to be a popular institution in Marion, with its great array of mechanics, who can be either or both share-holders and depositors.

The news of the new banking house will be very agreeably received, the Star has no doubt. While Marion is

proud of the stability of the four banks already existing—three of them state

incorporations with a combined capital of \$65,000 and one excellent private

bank—it has always been remarked that we could boast of no national bank in the last 25 years. There is a

fancied security in national banks that other charters do not convey.

Moreover the new bank will have identified with it interests that are of the highest value to Marion. So, all in all, it is a pleasure to note the progress of efforts toward a new financial institution, progress that is such that the realization of plans is not to be doubted at this moment.

SENT TO THE WORKS.

Young LaRue Man Punished for Stealing a Babe—Minor Mention.

LATELY, March 6.—Last summer Harry Riley, a young married man living just west of town, worked at a livery stable, but left in the fall. After he was gone the proprietor missed a horse valued at \$15. It was afterward learned that the horse had been sold to

Mr. Griffith, of Kentwood. Riley came here the forepart of the week and took Riley to that place. He pleaded guilty and was fined \$10 and costs and sentenced to thirty days in the workhouse.

About forty men assisted in raising an old-fashioned log cabin this week for our gardener, just west of town. It will probably be the last log house built in the county.

A. L. Crew is visiting his many friends here this week.

Bob Walton is very sick with typhoid pneumonia.

Mrs. C. H. Topliff is among the sick.

MARVELOUS ESCAPE

T FEELS TO FALL DOWN SIX STORIES.

Kreiger's Wonderful Experience at Troy Fire—Missed Her Hold and Tumbled Declared She Came Down in Comfort and Ease.

Going through space is the most of all nightmares. It is doubtful if a person living who has passed without having dreamed had dropped from a high building was falling, falling, falling, and breath, expecting every moment to be dashed to pieces on the below.

It is also no more dangerous than this: indeed, it may be fatal. Physicians of high declare that if the dreamer wakes up at the critical moment, in imagination, he reaches end, he will actually die. We past those nightmare sensations, describe them vividly. It is sel-sel a person actually falls from a dream in real life, however, and describes the sensations attend-

ing a person is Miss Lillian Kreiger, N. Y., whose escape during in Siebener's collar shop the day when 150 girls were near to was most remarkable and sus-pec-ted from a sixth story window received no injury save a minuscule. Miss Kreiger is of German, and possesses much of the power of self control which is a virtue of her race.

"In the fire broke out," she said, noted a window sill on the sixth thinking that the fire would either burn speedily or that I would be down on a fire escape. While I saw three women fall, but I lost my presence of mind. The smoke came pouring through my window, almost suffocating me. I turned and attempted to catch a wooden sign which was immo-

bilized under the window. I lowered myself and attempted to catch the sign I missed my hold on the converted wood and went tumbling down. "Oh, will I ever forget it!" exclaimed, closing her eyes and letting. "I did not even scream. I was chocking. I was sure I was going to my death, but I did lose consciousness, not even for a moment. My mind worked clearly, but never before in my life had I moved so rapidly. My eyes must have closed.

was of the opinion that I had to be in a perpendicular position during the entire fall, and was surprised to from persons who saw me that I turned completely over several times.

When I struck the awning, I thought, "Well, this isn't the sidewalk," when I slid off the awning into the air, I was surprised that any would ask me if I was hurt. All

was an awful descent, which seemed like many minutes, I had felt that I should be killed when I struck, I wonder that this terror did not stop me from hitting the net. But it stopped instantly.

looking around for my hat and which I had thrown from the window I saw them suspended from a sign which they had caught and calmly descended a bystander to procure them. Then I walked away none the worse for my fall save for a slightly sore ankle. I felt no other ill effects.

Why, I didn't even have a headache.

HE QUEEREST TOWN.

Michigan City Built on Ice Where Six Thousand People Live.

most remarkable city in the world is Michigan City, Mich. In a way it suggests ancient towns of the Arabs of the desert. It may be folded and carried in a night.

It is not built on land, nor yet is it a city of bats. It has no existence in winter, yet in winter it is a teeming, living place.

At Saginaw bay is the town of Sagona. As soon as the bay is over the city springs into existence.

houses are built of rough pine, well chinked and protected from vermin. The population varies year to year. In 1893-4 it was 10,000, and in 1894-5 it sprang up to

12,000. In 1895-6 it was 14,000, and in 1896-7 it was 16,000. This year there are 6,000 souls sheltered in the pine cabins of Fish City, one of whom is engaged in the business of the necessary stores and liquor.

The Relentless Garden Hose.

It is now the proper time for the cross-eyed woman to fool with the garden hose. I have faced death in almost every form, and I do not know what fear is, but when a woman with one eye gazing into the zodiac and the other peering into the middle of next week and wearing one of those floppy sunbonnets picks up the nozzle of the garden hose and turns on the full force of the institution I fly wildly to the mountains of Heapsdale.

Water won't hurt any one, of course, if one is used not to forget and drink any of it, but it is this terrible suspense and uncertainty about facing the nozzle of a garden hose in the hands of a cross-eyed woman that unnerve me and paralyse me.

A SAD STORY
Told by a Shoemaker Out of Employment.

Abion P. Reed, of Middletown, Ohio, has been in the city for the past two or three days, and tells a sad tale of misfortune and poverty. He is a shoemaker, and up to last summer had charge of the stock room in a factory at Cincinnati. He was getting along nicely and had managed to save five hundred dollars out of his earnings, which he had placed in a bank. One day his little daughter fell down in a fence corner, where the grass was being mowed and the scythe struck her on the knee cap.

A physician was called and she seemed to be getting along nicely, but blood poisoning set in and the limb naturally rotted away. Several operations were performed, but the limb finally had to be amputated at the thigh. The little store of money was gone and Reed found himself eighty dollars in debt and without a job.

He had a few dollars and with this he started out to look for work. About Wednesday he dropped into Marion and here his money gave out. He endeavored to get work in this city, but there was more than enough shoemakers already employed here. He has been lodging at the city prison since he came here, and Marshal Blain treated him very kindly and to him he told his story. He was assisted in getting a start to Cleveland, where he has a friend who is in charge of a factory and he hopes to secure employment there. He had a watch with him, which he tried to pawn while in this city but failed.

ONCE MORE

Thielen Stock Beer from Mike Finn's
Cellar.

M. H. Finn's beer cellar, on Silver street, was broken into again Friday night, and quite an amount of beer taken. This is the third or fourth time that thirsty burglars have entered this cellar and stolen beer. At one time arrests of beer thieves were made, and during the last summer the house was entered twice and beer stolen. The thieves were once tracked quite a distance.

There is a belief that this robbery was committed by home talent. No trace of the beer could be found, and if it had been tramps they would have left some signs of where they had taken the beer to drink. An effort will be made to get a clue to the thieves.

ROBBED ON A TRAIN.

Two Tramps With Watches Held Up by

Their Chums.

There was a robbery committed on a

Big Four train Friday night at Lakue,

or between this place and Lakue. Six

tramps were on a train together and

two of them had watches and some

money on their persons.

The tramps were all on a freight train

together at Lakue, and four of them

jumped on the other two and took

their watches and money from them.

At Marion Junction the two tramps

who were robbed got off the train, but

it is supposed that the other four got

off up street. The conductor of the

train informed Operator Cannady of

the matter here, but nothing could be

seen of the tramps.

The Big Four is being greatly annoy-

ed by bums. They are thick on every

train going east, many of them want-

ing to get to the lakes by the time that

navigation opens.
